

	Monday 13. 11.	Tuesday 14. 11.	Wednesday 15. 11.	Thursday 16. 11.	Friday 17. 11.	Saturday 18. 11.					
9:00	Opening lecture D. Miklavčič	Electropermeabilization <i>in vitro</i> J. Teissié	Molecular dynamics simulations of lipid bilayers electroporation M. Tarek	Electrochemotherapyf rom bench to bedside: prinsipcles, mechanisms and applications G. Serša	Gene electrotransfer in vivo M. Čemažar	Development of devices and electrodes D. Miklavčič					
9:15											
9:30											
9:45	Resting and induced transmembrane voltage T. Kotnik										
10:00											
10:15											
10:30	<i>Coffee break</i>	<i>Coffee break</i>	<i>Coffee break</i>	<i>Coffee break</i>	<i>Coffee break</i>	<i>Coffee break</i>					
10:45											
11:00	Tissue in electric field D. Miklavčič	Nucleic acids electrotransfer in vitro M. P. Rols	Nanoscale and multiscale electropulsation P. T. Vernier	Electrochemotherapy in clinical practice J. Gehl	Drug and gene delivery in the skin by electroporation V. Preat	Electroporation and electropermeabilisation L.M. Mir					
11:15											
11:30											
11:45											
12:00	Short presentations	Short presentations	Social event	Short presentations	Short presentations	Closing lecture L. M. Mir					
12:15											
12:30	<i>Lunch break</i>	<i>Lunch break</i>		<i>Lunch break</i>	<i>Lunch break (shorter)</i>						
12:45											
13:00					Exams						
13:15											
13:30											
13:45	Non Thermal Plasmas for Biomedical Applications: Studies, Issues and Challenges Jean Michel Pouvesle	Preserving freshness in frozen and dried vegetables using reversible electroporation, Federico Gomez		Image guided and computer assisted local tumor ablation with special focus on Irreversible Electroporation Michael Moche	Electromanipulation of Mesenchymal Stem Cells Franck Andre	<i>Chocolate</i>					
14:00											
14:15						Certificates and goodbye					
14:30											
14:45											
15:00	Practical work	Practical work		Practical work	Practical work						
15:15											
15:30											
15:45											
16:00											
16:15											
16:30											
16:45											
17:00											
17:30											
18:00											
18:30
